Who We Are

When we were building our business, we knew that it was important to build not just a team, but the right team. We knew that the success of our business was going to be in the hands of those people, and we take so much pride in the team we have built. When you call or walk into one of our locations, you know the person standing there is going to greet you right away, they are going to go above and beyond to get you the product or service you are looking for and if they don't have the answer, you can be sure that they are going to find an answer and get back to you quickly. They all take pride in the service level we provide our customers.

Our people are what differentiate us, they set us apart and they keep us striving for more.

At **Atlantic Coast Electric Supply**, we work every day to exceed your expectations. We strive to ensure that we have the product you need, competitively priced and superior customer service. Whether you are looking for a residential, commercial or industrial product you can count on us to have it. No job is too big or too small, we are here to help you finish your job on time and on budget.

With four locations in Charleston, SC, Greenville, SC, Concord, NC and Columbia, SC, you know there is a location convenient to your project. Each of our locations has a team of highly trained, experienced associates to have the answers to your questions. Whether its product, orders, delivery status or anything in between, you can count on us to have the answers.

Taking it One Step Further

Count on us to:

Provide accurate orders that match with your invoices – every time.

The product you need is in stock and if its not then we commit to communicate with you consistently so you know when it will be in.

Provide technical expertise when you need it.

Return quotes on your time frame.

We still focus on the 'basics' we answer our phones and reply to emails – not when we have time, but we make you a priority so you get the information you need, when you need it....and we say thank you, because without you there is no us.

Taking it to the next level with services such as value engineering your project, project management, materials management and more.

We take it to the next level by offering:

Vendor Managed Inventory (VMI) – Let us keep track of your inventory for you, we will manage it to ensure you always have what you need in stock, whether that is on a manufacturing floor, your truck or your warehouse. We can make sure you have what you need, when you need it without any stress on your side.

Project Management – We think you have better things to do then spend time calling to find out where your product is or when it is being delivered. Let us

manage your project for you, we will do the leg work, know where your product is at all times and ensure your material is delivered when you need it.

Product Storage – There are times where you just don't have room to store product on the job site or in your facility – that is where we come in. Let us store your product for you and release it as you need it, whether that is by room, by floor or product type we will manage it for you.

Our Mission

Exceed our customers' expectations while providing quality electrical products and solutions for their projects.

Our Vision

To be our customers first choice electrical distributor by providing superior value and an ease of doing business that is second to none.

We will support our mission and values by always conducting ourselves with:

»» **INTEGRITY**

»» **A COLLABORATIVE SPIRIT**

»» **COMPASSION FOR OTHERS**

»» **EFFORT ABOVE AND BEYOND EXPECTATIONS**

Atlantic Coast Electric Supply is a leading electrical distributor in North and South Carolina. With four locations to serve your needs. We have worked hard to build a reputation of being easy to do business with. We have a team of dedicated, thorough, knowledgeable associates that are focused on serving our customers. We are here to ensure you have the product you need, competitively priced and when you need it. Stop in or call us today and let us help your next project.
